

Web Authoring and Design (WAD)

Practical Demonstration Sheet

Student Name: _____

Student No: _____

Date: _____

The final submission is unique to the individual student and should be customize based on their original design, specification and technical requirements (such as, design, images, formatting, ...). This demonstration sheet gives the student a list of essential features they must demonstrate in the practical session. The online digital submission should be a single .zip, including the formal report (*.pdf), html code and any resources, such as, images or animations.

0 – no feature

1 – attempt (not fully working)

2 – working (basic but needs work)

3 – outstanding (excellent example that is faultless)

☐ Short Report [9]
